1. Rheumatology and Rehabilitation (formerly Annals of Physical Medicine and Rheumatology and Physical Medicine) is the official publication of the British Association for Rheumatology and Rehabilitation and is published quarterly.

2. Manuscripts. All papers and other editorial communications should be addressed to the Editor, Rheumatology and Rehabilitation, 2 The Green, Woodford Green, Essex IG8 0NF. Original articles are accepted on the understanding that they have not been published in any other journal, and are subject to editorial revision. A stamped addressed envelope should be enclosed if acknowledgement is required. Papers should be submitted in duplicate. They must be typewritten with double spacing and wide margins throughout and they should be carefully corrected before submission. The author who submits a multi-author paper is responsible for ensuring that all named authors concur with the contents of the paper.

3. Summaries. Each paper should commence with a factual summary not exceeding 150 words. These summaries may be used by journals which make abstracts; when so used, their sources will be acknowledged.

4. References in the text should be cited as: Smith (1965) or (Jones et al., 1966); et al. should be used if there are three authors or more. A list of references in alphabetical order of author should be given at the end of each article. The full title of each paper should be included. Titles of journals are abbreviated according to British Standard 4148: 1975.

5. Illustrations. Photographs and photomicrographs should be supplied as glossy prints, not slides or negatives, larger than the size for reproduction. Any labelling required should be shown on a duplicate. Drawings should be in black ink on heavy paper or card; the original should be supplied, not a photograph or photocopy. Special attention should be paid to size and clarity of lettering, which may be shown on an overlay if more convenient. All illustrations should be numbered consecutively on the back in soft pencil. If an illustration has been published elsewhere, written permission to reproduce should be obtained from the author and copyright holder, and copies of the relevant correspondence should be supplied with the illustration.

6. Scientific measurements should be given in SI units with the traditional equivalent in parentheses where appropriate. Conventions for abbreviations should be those detailed in Units, Symbols and Abbreviations, available from the Royal Society of Medicine.

7. Proofs of each paper will be sent to the first named author only, except in the case of specific requests to the contrary. Only minor corrections are acceptable at this stage.

8. All subscriptions, advertising and business communication should be sent to the publishers, Baillière Tindall, 35 Red Lion Square, London WC1R 4SG.

Fifty free reprints of each article are supplied to the author (or first named author if more than one). Quotations for additional reprints are supplied with the proofs and orders should be returned to the publisher. Payment must be made with the order.

© 1979 All rights reserved. No part of this publication may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying or otherwise, without the prior permission of the Editor and publishers of the Journal. Requests in the first place to Baillière Tindall.

Annual subscription post free: United Kingdom £14.00 (single copies £4.75). U.S.A. and Canada $39.00 (single copies $12.50). All other countries £17.00 (single copies £5.75). Payable in advance to Baillière Tindall, 35 Red Lion Square, London WC1R 4SG. Airmail is normally used for despatch of issues to all countries outside Europe.
Is there a Place for Chemical and Radiation Synovectomy in Rheumatic Diseases?
by C. J. Menkes

Circumferential Measurements in the Assessment of Synovitis of the Knee
by J. R. Kirwan, M. A. Byron, J. Winfield, D. G. Altman and J. M. Gumpel

A Simple Goniometer for Measuring Hip Function
by M. I. Ellis, K. E. Burton and V. Wright

Persistent Local Cutaneous Atrophy Following Corticosteroid Injection for Tendinitis
by Inger Marstrand Lund, René Donde and Erik A. Knudsen

A Prospective Study of Low Back Pain
by H. L. F. Currey, R. M. Greenwood, G. G. Lloyd and R. S. Murray

Patterns of Disability Related to Joint Involvement in Rheumatoid Arthritis
by Elizabeth M. Badley, Jennifer Lee and Philip H. N. Wood

Treatment of Rheumatoid Arthritis with a Single Daily Dose of Benoxaprofen
by E. C. Huskisson and Jane Scott

A Double-blind Cross-over Evaluation of Ketoprofen (Orudis) and Ibuprofen in the Management of Rheumatoid Arthritis
by F. Montrone, M. Fumagalli, P. Pellegrini, G. Ratti, G. Sala, C. Liverta, C. Pollini and A. E. Pontiroli

Clinical Comparative Evaluation of Choline Magnesium Trisalicylate and Acetylsalicylic Acid in Rheumatoid Arthritis
by W. J. Blechman and B. L. Lechner

Dr. Jean Colston
